GERARD FINANCED OWN CAMPAIGN

COL. WILLIAM PROCTOR, CINCINNATI MANUFACTURER, PUT UP \$500,000 FOR WOOD.

OBJECTS TO NAMING OTHERS

Gerard's Manager Says Seeds of Literature Planted and Left to Sunshine and Rain Failed to Grow Without Cultivation.

Washington.—Col. William Cooper Proctor, Cincinnati manufacturer, described as "the angel" of Maj. Gen. Leonard Wood's Ohio campaign, testified at the Senate investigation of pre-convention political financing that he had advanced \$500,000 to Wood's national organization. He estimated that contributions from all other sources would not make as much.

The committee of inquiry went into expenditures of three other candidates. Former Representative C. C. Carlin of Virginia, manager of Attorney General Palmer's national organization, testified that his cash expenditures had been \$50,610. James W. Gerard, former Ambassador to Germany, had spent \$14,040—all his own money—as a presidential candidate, according to his manager, H. T. Jones of Des Moines, Ia., while Representative Louis Crampton of Michigan said about \$13,000 had been spent in his State for Senator Johnson (Rep.) of California, this total not being included in the Johnson national campaign account, previously fixed at \$68,138.

\$10,000 Contribution. Carlin was questioned more extensively about alleged underpayments of income tax by the Crucible Steel Company, and Dupper, former chairman of the Board of Directors of this company, then he was concerning campaign expenditures. He told the committee that the largest contributor to Palmer's campaign was Mr. J. Guffey, who gave \$10,000, and who was identified as a prominent oil man.

It developed that the contributor was Joseph F. Guffey of Pittsburgh, an oil man and former Democratic national committeeman from Pennsylvania.

Col. Proctor testified that besides advancing \$500,000 to Gen. Wood's campaign fund he had made a contribution of \$10,000. He objected to naming other contributors, saying that the men charged with handling the campaign finances would give names and exact amounts. Urged by committee, however, he said that Ambrose Money had given \$20,000, and that William Wrigley, "a fellow like me," and Mr. Blythe, a New York banker, had been large contributors.

"We sowed seeds of literature in South Dakota," Jones testified, describing the passing of Mr. Gerard's own \$14,000, "and left it to the sunshine and rain. We found that it took something more than sunshine and rain to make it grow after the votes were counted and decided not to go into any more primary elections."

SENATE PASSES BILL CARRYING \$440,000,000

Bondary Civil Appropriation Measure Sent to Conference—Would Regulate Printing.

Washington.—The \$440,000,000 sundry civil appropriation bill, the last of the regular annual government supply bills, was passed by the Senate and sent to conference.

The bill, as passed, carried an amendment giving Congress authority to determine what government publications shall be published, but authorizing those now being issued to be continued until June, 1921.

Except that power to control government publications is vested in Congress instead of in the joint Congressional Printing Committee, the amendment is similar to the one which resulted in the President recently vetoing the legislation appropriation bill.

The Senate also adopted without debate, an amendment appropriating \$1,000,000 for the use of the Bureau of Internal Revenue, in guarding intoxicating liquors held in warehouses and for enforcing the national prohibition act. Another amendment was adopted authorizing the Government to pay the railroad fare home from Washington of war workers who resign or are dismissed from service between now and July 1, next.

Other legislative riders included authority to extend use of the \$300,000,000 revolving fund of the Interstate Commerce Commission from five to fifteen years.

The Senate accepted an amendment by Senator Robinson (Dem.), Arkansas, appropriating money for continuance of the federal employment service.

Two Americans Kidnaped. Washington.—Two Americans, Homer Carr and a man named MacDonald, have been taken prisoners at Jimenez, Chihuahua, according to a report to the State Department from the American Consul at Chihuahua. No details were given.

The State Department issued the following statement regarding the Americans: "MacDonald" is probably M. C. Donald of Vernon, Tex., who went to Mexico this year as an employee of the Huasteca Petroleum Company to work in the oil fields in the neighborhood of Tampico. He is a native of Mississippi.

"Homer C. Carr is employed as a mining engineer by the American Smelting and Refining Company. His home is in New York City. He is a native of Pennsylvania." Reports to the State Department from the American Embassy at Mexico City said no apprehension was felt there as to the safety of Ignacio Bonillas, former Mexican Ambassador here, who was one of those captured when Carranza was killed.

El Paso, Tex.—Homer Carr, an examining engineer for the American Smelting and Refining Company, is a prisoner of the forces of Francisco Villa, coincidentally with new demands the bandit leader has presented the de facto Government of Mexico that he be made military commander of the State of Chihuahua.

BANKER \$35,000 SHORT, ARRESTED WITH \$10,000

Went to Doctor to Get "Fixed Up" and Confessed to Fraud.

Marford, Conn.—With \$10,000 in his pocket, Augustus W. Schumacher, for many years a trusted teller of the Phoenix National Bank, was arrested charged with having embezzled \$35,000.

The discovery of Schumacher's defalcations came through his temporary absence after reporting to the bank in the morning.

Schumacher in the meantime had gone to his doctor's home. He told the doctor that he had \$10,000 in his pocket as get away money and wanted to be "fixed up" so that he could drive his car. The doctor told him that he was in no condition to drive; that he should stay there overnight and take something that would make him sleep.

Schumacher agreed to this, and the doctor gave him a hypodermic. Schumacher soon went to sleep. After he had lost consciousness the doctor took the \$10,000 from his pocket and drove to his home, where he left the money with Mrs. Schumacher, telling her at the same time that her husband's confession to him that he was a defaulter.

TWO BIG SUGAR MEN HELD

ARRESTED ON CHARGE OF PROFITEERING.

Companies Said to Have Made Millions of Dollars by Hoarding Production.

Boston, Mass.—The Federal Government took action against sugar refiners here for alleged profiteering and hoarding.

The Reverse sugar refinery and Henry E. Worcester, its vice president, were charged with exacting excessive prices and with holding sugar from the market, and the American Sugar Refining Company and W. K. Green, its general manager, were charged with selling sugar at excessive prices. The complaints asserted that the companies had made millions of dollars by hoarding and regulating the price.

Worcester and Green submitted to arrest on the complaints. The Government, in prosecuting under the Lever act, declares that the companies set the price of sugar for all New England except Connecticut. It is claimed that the refineries sold to independent companies who acted as brokers and who violated an agreement reached at a conference in Washington for regulating distribution of sugar to the retail trade.

The Reverse refinery, which grows sugar, according to the complaint, withheld its product from the market to the extent of millions of pounds, creating a scarcity with attendant higher prices.

The American Company is alleged to have exacted a price of from 15 to 21 cents a pound for sugar which cost the company only 6 1/2 cents a pound.

The quotations in the Government's complaint were in sales at wholesale.

RAILROADS ASK I. C. C. FOR BILLION DOLLAR RATE RAISE

Howard Elliott Says More Will Be Asked if Men's Pay Is Increased.

Washington.—The \$1,017,000,000 additional revenue which the railroads are seeking through increased freight rates does not take into account any increase in wages which the Railroad Labor Board may grant the 2,000,000 railway employees, Howard Elliott of the Association of Railway Executives stated before the Interstate Commerce Commission.

Elliott's statement, made at the conclusion of his prepared statement at the opening of the hearing on the railroads' application, was in reply to a question by S. H. Cowan of the Texas Cattle Growers' Association. Cowan referred to the proposed wage raise as "one billion dollars."

Before that T. W. Witt Cuyler, president of the Association of Railway Executives, replying to a question for Elliott, said the railroads were represented before the Labor Board to assist in the wage adjustment and not to oppose any meritorious demands.

Elliott was questioned at length by representatives of shippers as to the "book value" of the roads, but he declined to estimate the total amount of the property investment accounts.

"The railroads were not returned to private ownership in the same condition as they were when taken under Federal control," he said; but he was unable to estimate the amount owed the roads by the Government.

"Increases in freight rates of 30.43 per cent in Eastern territory, 30.95 in Southern territory and 29.91 per cent in Western territory, to meet the difference between the 6 per cent return on property investment permitted under the transportation act," were advocated by Elliott.

DENIES PROMISE TO RAISE \$500,000

HANNA ISSUES STATEMENT CONCERNING TESTIMONY OF CONNECTICUT MAN.

NEVER ATTENDED MEETINGS

Says His Only Contribution to Wood Fund Was \$5,000—Calls King's Testimony Misrepresentation.

Cleveland, Ohio.—D. R. Hanna issued a statement concerning the testimony of John T. King of Connecticut, before the Senate investigating committee at Washington, which said:

"Mr. King's statement of my agreeing to raise \$500,000 for Gen. Wood's campaign is a gross misrepresentation. Further, I never attended any meeting with William Loeb and Charles T. King in reference to organizing a Roosevelt memorial club. Nor did I ever have any conversation with J. T. King or Mr. Loeb. I have always been greatly interested in the Roosevelt memorial plans, but never have I discussed the situation with either Mr. Loeb or Mr. King. I do not know Mr. Loeb. I only met him casually during President McKinley's administration, and have not seen him since."

Asked King to Aid. "It is true I did later and at Gen. Wood's suggestion, ask Mr. King if he would undertake the management of Gen. Wood's prenomination campaign. I also, through a mutual friend, arranged with Mr. King to meet the General in New York."

"This was accomplished and Mr. King established his headquarters and commenced the formation of an organization. Since then I have not had any active connection with Gen. Wood's campaign or Mr. King's work. I have contributed \$5,000 towards the expenses of Gen. Wood's campaign in the Cleveland congressional districts. That is the total of my contribution to the entire Wood campaign."

Washington.—The Senate investigation into pre-convention expenditures in behalf of presidential candidates brought forth information of plans to put W. G. McDougal's name before the Democratic National Convention and an assertion from John T. King, original manager of Maj. Gen. Leonard Wood, that Dan R. Hanna of Cleveland, early in the General's campaign, had promised "to go out and gather in \$500,000." In reply to questions, King said he did not know whether the money was received.

MANDATE IS DISAPPROVED

PROPOSED ARMENIAN PLAN IS TURNED DOWN.

Senate Foreign Relations Committee Votes 11 to 4 Against President's Suggestion.

Washington.—President Wilson's proposal for an American mandate over Armenia was disapproved by the Senate Foreign Relations committee, today on the President's request.

By a vote of 11 to 4 the committee reported a resolution declaring that Congress respectfully declined to grant to the executive the power to accept a mandate over Armenia.

A resolution was reported to the Senate later for adoption, but without any formal committee report. It was agreed to leave the Senators to cite reasons in debate for and against the mandate to proposal.

Senator Hitchcock of Nebraska, the administration leader in the treaty fight, said he disapproved "such summary action, and believed that the committee should give the question further study and show further respect to the President's proposal." He added, however, that he opposed the mandate on principle.

The roll call follows: For the committee resolution: Republicans—Lodge, McChesney, Borah, Brandegee, Fall, Knox, Harding, Johnson, New and Moses—11. Democrats—Hitchcock, Williams, Smith of Arizona and Pittman—4.

Senators Swanson of Virginia and Pomeroy of Ohio (Democrats), were absent, but both were reported to be against a mandate. Senator Smith, it was stated, also opposed a mandate and doubted its legality, but objected to the form of the committee resolution.

When Senator Lodge reported the resolution to the Senate, Senator Hitchcock inquired as to his plans for calling it up. The Republican leader replied that it depended upon the state of the business in the Senate, but that he would be glad to call it up as soon as conference reports on various pending bills had been acted upon.

BABOON PUT TO USEFUL TASK

As Shepherds, the Animals Are Said to Develop Traits That Are Almost Human.

I have often wondered, remarks Mr. W. C. Scully in the Atlantic Monthly, why more baboons are not trained as shepherds. The creatures invariably develop an absorbing affection for any young animals, human or other, that are placed in their charge, and there is a well-authenticated instance of a baboon taking charge of a motherless Kafir infant, and nursing it night and day for more than two years. The similar foster parent performed every necessary function except feeding the child.

Several baboons have been trained as shepherds. In a case that Mr. Scully himself observed the baboon had charge of several hundred sheep. He became passionately attached to the members of the flock, and remained with them all day long at pasture and brought them back to the corral in the evening. His only fault as shepherd was the outburst of extreme solicitude; if he heard the voices of wild baboons in the distance at any time of the day, he would at once collect the sheep, and with every appearance of the liveliest terror hurry them home.
